DETAILED ACTION

Election/Restrictions

1. The Office action is in response to Amendment filed on 10/11/06, claims 1-3, 5-11, 16-19, 21-22, 25-26, 29-50 are pending, of which, claims 31-50 are new.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, 5-7, 9-11, 16-19, 21-22 drawn to photosensitive device, classified in class 358, subclass 482.
 - II. Claims 25-26, 29-30, drawn to calibration of image, classified in class 358, subclass 504.
 - III. Claims 31-50 drawn to image processor, classified in class 358, subclass 501.
3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 2625

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
